PROFILE

Computer Science Engineering student with a **9.20/10 CGPA** and hands-on experience in **software development, testing, debugging, APIs, and full-stack applications**. Skilled in **Python, C++, SQL, data structures, Git, and REST APIs**, with experience building and deploying practical software solutions.

EDUCATION

B.Tech in Computer Science and Engineering, SRM Institute of Science and Technology (SRMIST) — **2023 – 2027**

Class XII, CBSE, Vardhman International School, Jaipur — **2023 | 80.9%**

Class X, CBSE, Seedling Public School, Jaipur — **2021 | 70.6%**

EXPERIENCE

AI Software Developer Intern — Avyukta Intellicall — **Jun 2026 – Jul 2026**

- Designed, developed, tested, and deployed the company website from the ground up, following structured software development practices.
- Developed and integrated an **AI-powered chatbot** through API integration to automate customer interactions.
- Tested functionality, identified defects, and debugged issues to improve **software reliability and compatibility**.
- Improved **SEO audit scores** across multiple pages from **61 to 90** and **75 to 89** through technical optimization.

Full Stack Developer Intern — Student Patrika — **Jun 2025 – Jul 2025**

- Developed and deployed full-stack features while contributing to application functionality and backend logic.
- Integrated **REST APIs** for efficient data retrieval, processing, and application communication.
- Contributed to **testing, debugging, deployment, and problem solving** throughout the software lifecycle.

PROJECTS

SmartNutriAnalyzer — **Next.js | TypeScript | PostgreSQL | OCR**

- Built a full-stack nutrition assistant with personalized calorie and macronutrient targets, user data management, and meal tracking.
- Implemented **OCR-based extraction**, validation, and rule-based processing to analyze food labels and generate nutritional insights.

Real-Time Age & Gender Detection — **Python | OpenCV | NumPy | Deep Learning**

- Developed a real-time computer vision application in **Python** using pre-trained Caffe models for age and gender classification.
- Implemented image preprocessing, face detection, model inference, and prediction processing with debugging and testing.

MoveIn Kashmir — **Web Development**

- Developed a centralized rental platform for organized property listings and easier property discovery for tenants in Kashmir.

TECHNICAL SKILLS

Programming	Python, C++, SQL, JavaScript, TypeScript, Java (Basic)
Core CS	Data Structures & Algorithms, OOP, DBMS, Computer Networks, Software Development
Backend & APIs	REST APIs, API Integration, Backend Development, JSON
Frontend	React, Next.js, HTML, CSS
Databases	PostgreSQL, MySQL
Testing & Development	Software Testing, Debugging, SDLC, Agile Development
AI / ML	Machine Learning, NLP, Deep Learning, OpenCV
Tools	Git, GitHub, Docker, Postman, VS Code

POSITIONS OF RESPONSIBILITY

- **Technical Team Member — CSI, SRMIST**: Contributed to technical events, coding competitions, workshops, and student initiatives.

ACHIEVEMENTS & CERTIFICATIONS

- **Open-Source Contributor** – Material-You-app-list: Contributed to a public collection of applications supporting Material You design.
- **Top-15 Finalist** – Hackstasy Hackathon, 2024
- **NPTEL Elite Certification** – Natural Language Processing, **70%**, 2026
- **HackerRank Certifications** – Java (Basic), Python (Basic), 2024
